FCC Members:

I am aware that the Supreme Court has confirmed the FCC's authority to enforce policies regarding expletives and nudity on television and radio.

However, I oppose any changes to the current FCC indecency standards that would allow television and radio stations to broadcast expletives and nudity on the public airwaves, even if brief or "fleeting"—especially during times when children are likely to be watching or listening.

Relaxing the current policy would not serve the public interest, and I urge the FCC to reject all proposals that would allow for the broadcast of expletives and nudity on FCC-licensed stations.

RE: Docket # 13-86

To whom it may concern:

The federal statute says that on broadcast TV you're not allowed to have any indecency or profanity. That law is supposed to be administered by the F.C.C. The current chairman, Julius Genachowski, has claimed that this was tied up in the courts. That was not the case. He simply hasn't enforced the law since President Obama put him in office. Now that he's leaving his post, he wants to change the law to say that nudity and profanity are fine as long as there aren't sustained incidents.

Making matters worse is the fact that Mr. Genachowski's department has trashed more than one million citizen complaints to the F.C.C.

This is an insult to the American people and a dangerous trend for our society!

Do not change this law. Start enforcing it as it was intended to be enforced.

A concerned American citizen, mother and grandmother,

The First Amendment principles do not license all behavior. Programmers may have the "freedom" to broadcast defiling content, but they have the responsibility not to. It is the job of the FCC to make sure that programmers remain faithful in guarding the integrity of the American people. Please make sure that any and all expletives and nudity are kept off of the networks.

Sincerely yours,

To FCC:

Please, please don't subject our families to any more graphic language or nudity than is already inflicted on us through TV shows. We can hardly watch anything on TV without being assaulted with disgusting language and immoral clothing and actions.

We beg you to keep the standards as they are or even more strict if that were possible.

Re: Proceeding Docket Number 13-86

I am writing with concern regarding your scheduled upcoming decision in May to relax the regulations regarding what is allowed to be broadcasted on the major television networks.

Please uphold and enforce the regulations currently on the books and do not consider a change to the indecency standards. The FCC was established to represent American Citizens, not big money television networks. We need to protect the moral standards regarding obscenity and nudity that have been established. If we continue to turn our back on the laws of God, this country will fall further.

I am aware that the Supreme Court has confirmed the FCC's authority to enforce policies regarding expletives and nudity on television and radio.

However, I oppose any changes to the current FCC indecency standards that would allow television and radio stations to broadcast expletives and nudity on the public airwaves, even if brief or "fleeting"—especially during times when children are likely to be watching or listening.

Relaxing the current policy would not serve the public interest, and I urge the FCC to reject all proposals that would allow for the broadcast of expletives and nudity on FCC-licensed stations.

Commissioner Robert M. McDowell

Dear Commissioner McDowell:

I was prompted to write to you after reading the enclosed letter to the editor which appeared in yesterday's paper.

Regarding the FCC considering dropping the ban on expletives and nudity on network television and radio stations.....you've but to read Genesis 18:20 and 19:24-28, regarding Sodom and Gamorrha, to understand God's thinking on the immorality of mankind.

To give free reign to those who would take advantage of the weakness of mankind would make the individuals who run the FCC equally guilty before God as those who do the devil's work and I've no doubt they'll be held responsible for each soul that's led into the "cesspool of profanity and indecency." Freedom to send this type of message over the airwaves is like allowing a leper to roam free among us.....only instead of plaguing the body it spreads a disease of the mind.

I pray you will do everything possible not to encourage this type of immorality. Instead of bowing down to weakness, stand up for what you know is right.

Sincerely,

5/

RE: Promoting Promiscuity and Perversion: Relaxing the Standards of Decency

Every square inch of the United States government is owned by the people who feed and fund it. The U.S. government works for the people. The people of this country do not work for the U.S. government. Your consideration of allowing the use of the "F" word and/or displays of frontal nudity on the airways is classic Communist Manifesto inspired destruction. It can't be condoned or permitted. Moreover, we will be certain to uncover the interested party or parties who are sponsoring this sovereign suicide.

John Adams, our second president and the father of the United States Navy so correctly stated: *"Morals alone are eternal. All the rest is balloon and bubble from the cradle to the grave"*. Conversely, Joseph Stalin stated: *"America is like a healthy body and its resistance is threefold: its patriotism, its morality, and its spiritual life. If we can undermine these three areas, America will collapse from within"*. Stalin was prophetic.

On January 10, 1963 the House Of Representatives was presented with The Communist Takeover Of America – 45 Declared Goals from the book – *The Naked Communist* written by Cleon Skousen. All of these 45 toxic totalitarian goals have been accomplished in full or in part.

Goal #16: *"Use technical decisions of the courts to weaken basic American institutions by claiming their activities violate civil rights."*

Goal #24: *"Eliminate all laws governing obscenity by calling them "censorship" and a violation of free speech and free press"*.

Goal #25: *"Break down cultural standards of morality by promoting pornography and obscenity in books, magazines, motion pictures, radio and TV."*

Goal #26: *"Present homosexuality, degeneracy and promiscuity as "normal, natural and healthy"*.

If the accomplishment of these foul, filthy, frenetic, freakish, fruitless and fatal goals were good for America, why would they be part of the Communist Takeover of America? Even more critical why are you aiding, assisting and abetting in this malevolent takeover? Your support of David Ortiz's [Boston Red Socks] use of the "F" word is conspiratorial. The FCC has neither the right nor the responsibility to aid the further wrecking of American morals. Therefore, please halt now and forever any approval for use of the "F" word and/or for displaying frontal nudity on the American airwaves.

Thank you,

cc: Interested parties inside and outside the U.S. Government.

Keep ban on swearing, nudity

To all who are concerned: The FCC is considering dropping the ban on expletives and nudity on network television and radio stations. They're taking comments from the public until the end of April. To file a formal comment, go to tinyurl.com/FCCtvstandards

They're not taking general email comments — you must go to the link above to file your comment. Enter the code 13-86 in the "Proceeding Number" box. There's enough sewage coming from the Hollywood/Broadcast Media pipe already. The collective media doesn't seem to recognize — or it ignores — its enormous contribution to the disintegration of the family, and the rapid spiral of the country into the cesspool of profanity, indecency and obliteration of historical/traditional values.

As you are probably aware, the Supreme Court recently upheld "the broadcast decency law," which gives authority to the FCC to enforce broadcast decency standards between the hours of 6 am and 10 pm, when children are likely watching.

This is a victory for all of us who are trying to stem the tide of the onslaught of obscenities on television.

We are writing to ask that now that you have been given the authority to do so, by the highest court in the land, no less, that you remain vigilant in DEMANDING that the public airwaves maintain decency!

We also ask that you continue to impose indecency fines on networks who permit brief nudity or foul language on these airwaves!
